# **Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters in Accordance with *Government Auditing Standards***

State of Washington  
Columbia River Gorge Commission  
July 1, 2009 through June 30, 2010

Board of Commissioners  
Columbia River Gorge Commission  
White Salmon, Washington

We have audited the special purpose financial statement of the Columbia River Gorge Commission, as of and for the year ended June 30, 2010, and have issued our report thereon dated November 18, 2010.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

## ***INTERNAL CONTROL OVER FINANCIAL REPORTING***

In planning and performing our audit, we considered the Commission's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Commission's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

## **COMPLIANCE AND OTHER MATTERS**

As part of obtaining reasonable assurance about whether the Commission's financial statements are free of material misstatement, we performed tests of the Commission's compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended for the information and use of management. However, this report is a matter of public record and its distribution is not limited. It also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

A handwritten signature in black ink, appearing to read "Brian Sonntag". The signature is fluid and cursive, with a large initial "B" and "S".

# **Independent Auditor's Report on Financial Statements**

## **State of Washington Columbia River Gorge Commission July 1, 2009 through June 30, 2010**

Board of Commissioners  
Columbia River Gorge Commission  
White Salmon, Washington

We have audited the accompanying Statement of Expenditures – Budget and Actual of the Columbia River Gorge Commission, as of and for the year ended June 30, 2010, as listed on page 5. This financial statement is the responsibility of the Commission's management. Our responsibility is to express an opinion on the statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Statement of Expenditures – Budget to Actual was prepared for the purpose of complying with the Columbia River Gorge Compact (for inclusion in the Commission's annual report), as described in Note 1, and is not intended to be a complete presentation of the Commission's assets, liabilities and revenues.

In our opinion, the Statement of Expenditures – Budget and Actual presents fairly, in all material respects, the budgeted and actual expenditures of the Columbia River Gorge Commission for the year ended June 30, 2010, on the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards*, we have also issued our report on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

This report is intended for the information and use of the governing body and management of the Commission. However, this report is a matter of public record and its distribution is not limited. It also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

A handwritten signature in black ink, appearing to read "Brian Sonntag". The signature is fluid and cursive, with the first name "Brian" and last name "Sonntag" clearly distinguishable.

Notes to the Financial Statement  
For the Fiscal Year Ended June 30, 2010**

**Note 1 - Summary of Significant Accounting Policies**

The accompanying Statement of Expenditures-Budget and Actual of the Columbia River Gorge Commission has been prepared to meet the requirements of the Columbia River Gorge Compact and the Interstate Cooperative Agreement between the Washington State Office of State Auditor and the Oregon Secretary of State, Audits Division. The Statement of Expenditures-Budget and Actual is not intended to be a complete presentation of the commission's assets, liabilities, and revenues nor does it constitute a complete set of financial statements in accordance with generally accepted accounting principles. The more significant of the state's accounting policies are as follows:

**A. Reporting Entity**

The commission is a regional agency authorized by Congress through the Columbia River Gorge National Scenic Area Act (PL 99-663) and created by the states of Washington and Oregon by interstate compact. The commission is comprised of 12 members from the two states and one member appointed by the US Secretary of Agriculture. Its primary role involves planning, consulting, and oversight in the implementation of the federal legislation. The commission has an authorized staff level of 9.6 FTEs, all of whom are Washington state employees.

**B. Measurement Focus and Basis of Accounting**

The commission uses the general fund to account for all of Columbia River Gorge Commission's general activities. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The general fund is accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements for this fund present increases (i.e., revenues and other financial sources) and decreases (i.e., expenditures and other financing uses) as changes in net current assets.

The modified accrual basis of accounting is used by the general fund. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Under modified accrual accounting, expenditures are recognized when the related fund liability is incurred. Exceptions to the general modified accrual expenditure recognition criteria include principal and interest on general long-term indebtedness which are recognized when due and compensated absences which are recognized when paid.

### **C. General Budgetary Policies and Procedures**

The legal level of budgetary control is at the fund/account, agency and appropriation level, with administrative controls established at lower levels of detail in certain instances. Annual budgets are established at the state legislative level through an allotment process. All funding is provided by appropriations from the states of Washington and Oregon. Other sources of revenue received during the period, included unanticipated receipts from the Department of Agriculture – Forest Service, and miscellaneous donations from private parties.

Commissioner compensation, including travel, is paid directly, and accounted for separately, by each state. All other commission expenditures are joint expenditures, which are shared equally by both states. These expenditures are processed, paid, and accounted for by the state of Washington. Oregon reimburses Washington for its 50 percent share.

### **D. Compensated Absences**

#### Annual Leave and Sick Leave

Commission employees accrue vested annual leave at a variable rate based on years of service. In general, accrued annual leave cannot exceed 30 days at the employee's anniversary date. It is the commission's policy to liquidate unpaid annual leave at June 30 from future resources rather than currently available expendable resources.

Employees accrue sick leave at the rate of one day per month without limitation on the amount that can be accumulated. Sick leave is not vested; i.e., the commission does not pay employees for unused sick leave upon termination except upon employee death or retirement. At death or retirement, the commission is liable for 25 percent of the employee's accumulated sick leave. In addition, the commission has a "sick leave buyout option" in which each January, employees who accumulate sick leave in excess of 60 days may redeem sick leave earned but not taken during the previous year at the rate of one day's pay in exchange for each four days of sick leave. It is the commission's policy to liquidate unpaid sick leave at June 30 from future resources rather than currently available expendable resources. Accordingly, the general fund recognizes sick leave when it is paid.

#### **Note 2 - Retirement System**

Commission employees are members of the Washington state retirement system. (Actuarial and other information of this system can be found in the Washington State Comprehensive Annual Financial Report.)

#### **Note 3 - Summary of Significant Litigation**

At this time the Columbia River Gorge Commission is not a party to any litigation that may result in a financial liability.

## **ABOUT THE STATE AUDITOR'S OFFICE**

---

The State Auditor's Office is established in the state's Constitution and is part of the executive branch of state government. The State Auditor is elected by the citizens of Washington and serves four-year terms.

Our mission is to work in cooperation with our audit clients and citizens as an advocate for government accountability. As an elected agency, the State Auditor's Office has the independence necessary to objectively perform audits and investigations. Our audits are designed to comply with professional standards as well as to satisfy the requirements of federal, state, and local laws.

The State Auditor's Office employees are located around the state to deliver our services effectively and efficiently.

Our audits look at financial information and compliance with state, federal and local laws on the part of all local governments, including schools, and all state agencies, including institutions of higher education. In addition, we conduct performance audits of state agencies and local governments and fraud, whistleblower and citizen hotline investigations.

The results of our work are widely distributed through a variety of reports, which are available on our Web site and through our free, electronic subscription service. We continue to refine our reporting efforts to ensure the results of our audits are useful and understandable.

We take our role as partners in accountability seriously. We provide training and technical assistance to governments and have an extensive quality assurance program.
