**Subject:** Comment for the Gorge Commission  
**Date:** Monday, May 11, 2020 3:28:34 PM

---

Dear Ms Acker,

I realize I am past the due time for the comment, but I will make it anyway and perhaps it will be communicated at some time to the commissioners.

Plans and regulations adopted taken by the Gorge Commission can have a significant impact on the Columbia River Gorge, to the residents, employers, businesses and other government agencies in the Gorge. I urge the Commission to put clear direction in the Climate Change Chapter of the Management Plan under consideration by the Commission. The Gorge Commission has the authority to require climate reduction actions within the Columbia River Gorge Scenic Area and I urge you to exercise your authority.

Sincerely,

Francie Royce
