Zoom Webinar allows attendees to listen to audio and view video if the attendee has the video equipment capability. Attendees may also join by phone only.

Before the Webinar

- Make sure you have access to good phone and internet lines.
- If you are connecting from a laptop, try to plug into wall power because battery can adversely affect video quality.
- Call/sign into the webinar at least 15 minutes before the webinar is set to begin to allow time to troubleshoot and resolve any potential issues with equipment (audio/video).

If for some reason the Zoom Webinar is not working properly, we will have everyone leave the webinar and join again by calling into the audio-only platform using the telephone numbers provided in the invitation email.
