

[Email received 6/24/20 from Mary Rapar, repar2014@gmail.com]

Dear Gorge Commissioners and GC Director,

I urge you all to make the Management Plan a Word document so that commenters can more easily make pertinent comments, observations, and edits. The document should have LINE NUMBERS so as to make comments on the pages more accessible to the staff. (I'm not talking about tracking, that would be too confusing.)

PDFs are not easy. Word docs are much easier to copy and paste when making comments.

I am almost done with the 500 page MP draft and don't relish having to count lines when making my very numerous comments!

Could the MP draft be put on the GC website as a Word document by the 25th? Thank you.

Mary Rapar
