

[Email received 6/26/20 from Kathy Kelly, kelly221@att.net]

Dear Gorge Commission,

I am a member of the Portland Garden Club who has a history of advocating against fossil fuel transport through the Gorge. The PGC recently sent a letter to DEQ opposing oil transport by rail because of the profound risks to the environment.

We would like to see fossil fuel infrastructure addressed in this new master plan policy.

Thank you for your consideration,

Kathy Kelly

PGC has a history of opposition to fossil fuel transport through the Gorge. PGC recently sent a letter to DEQ opposing oil transport by rail because of profound risks to environment and we would like to see fossil fuel infrastructure addressed in the new policy,
