**Location of property:**

Township: 2N  
Range: 15E

Section & Qtr. Section: 10  
County: Klickitat

Tax Lot No(s.): 0215030000800  
Parcel Size (acres): 0.92

Existing use of parcel: Telecommunications tower

Use of adjacent parcels: Public utilities

**Project description:** This should include all proposed activities and details on size, height, exterior colors, and construction materials of proposed structures. Any areas of ground disturbance and landscaping details should also be described. It is important to describe all aspects of your project so that you may gain approval for all of the development activities you plan to do.

Adding FirstNet and LTE 6C project comprised of removing and replacing (3) existing antennas, (3) existing RRH units, and the existing power unit to accommodate new converter shelf and (2) additional battery strings. The ground mounted RRH units will be relocated to the top of the tower, and the existing antenna surge protector will be upgraded. UMTS equipment will be decommissioned in place. The current concealment elements will be observed with all new and relocated equipment. There will be no change to the overall height of the support tower, nor will there be any impact made to the ground footprint.
